

# Kane County, IL

Kane County is in flux as it transitions from a largely rural environment to a suburban one. As the Chicago suburban area sprawls westward and absorbs more farmland Kane County grows in leaps and bounds. Kane County's population has historically been concentrated on the eastern edge along the Fox River as well demonstrated by this map.

With parts of Aurora, Elgin and Naperville within its boundaries Kane County hosts some of the fastest growing communities in Illinois. Once rural towns such as Sugar Grove and Elburn are growing exponentially.

The Kane County Sheriff's Office patrols many of the small communities and dispatches Elburn, Gilberts, Hampshire, Maple Park, Wayne PD's, the Fox River Valley Park District and Kane County Forest Preserve PD's. Kane County SO also dispatches several fire districts.
